PROFESSIONAL SUMMARY

Motivated Full Stack Web Developer with hands-on experience building responsive, data-driven web applications using React, PHP, MySQL, and JavaScript. Skilled in frontend and backend development, REST API integration, authentication systems, and responsive UI design. Built multiple real-world projects focused on clean UI, reusable components, secure authentication, and mobile-first development. Passionate about creating scalable web applications with maintainable code and modern development practices. Seeking a Full Stack Web Developer role where I can contribute to frontend and backend application development using React, PHP, MySQL, and REST APIs.

PROJECTS

FreshMart — Grocery Web Application

Tech Stack: React.js, JavaScript, PHP, MySQL, REST API, Bootstrap

- Built a fully responsive grocery web application with routing across multiple pages including login, landing, and home.
- Developed reusable React components for dynamic product rendering and consistent UI design.
- Implemented mobile-first responsive design for desktop, tablet, and mobile devices.
- Integrated REST APIs for user authentication including login and registration using PHP and MySQL.
- Implemented server-side validation and sanitization for secure user data handling.

User Authentication System

Tech Stack: PHP, MySQL, REST API, JavaScript

- Developed a secure REST-based authentication system using PHP and MySQL.
- Connected frontend forms with backend APIs for user registration and login functionality.
- Implemented server-side validation and session management for secure authentication.

Todo List Application

Tech Stack: JavaScript, HTML5, CSS3

- Built a task management application with add, delete, and completion toggle features.
- Used DOM manipulation and event handling for a smooth user experience without requiring page refresh.
- Designed a responsive UI using HTML5 and CSS3.

Animal Podcast Website

Tech Stack: HTML5, CSS3, Flexbox

- Developed a structured static website using semantic HTML5 and CSS3.
- Implemented responsive Flexbox layouts for multiple screen sizes.
- Focused on clean UI design and accessibility.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Responsive Design, Flexbox

Backend: PHP, REST API Development, Authentication Logic, Input Validation

Database: MySQL, SQL, CRUD Operations, Database Schema Design

Tools: Git, GitHub, VS Code, Figma, XAMPP

Deployment: Vercel, Render
